WidePoint CTO Daniel Turissini to Speak at the Information Systems Security Association-Northern Virginia Chapter Meeting January 20, 2011

WASHINGTON, January 13, 2011 /PRNewswire -- WidePoint Corporation (NYSE Amex: WYY), a specialist in wireless mobility management and cybersecurity solutions, announced today that Daniel Turissini, Chief Technology Officer, will speak at the Information Systems Security Association-Northern Virginia (ISSA-NOVA) Chapter meeting on January 20, 2011 on the topic of 'Progress of Federated Identity Management: Device Identification, Privacy Protection and the Cloud.' He will discuss the significant advancements in how federated identity management is being applied in enterprise environments. The presentation will spotlight the Department of Defense (DoD) and how it is progressing in its implementation of a true Identity Federation that is scalable beyond a relatively closed government to government and business to government environments.

The meeting begins with dinner and networking at 5:30 p.m., followed by Mr. Turissini's presentation. Mr. Turissini has also served as the Chief Executive Officer of ORC, a wholly-owned subsidiary of WidePoint since its acquisition of ORC in October, 2004. Mr. Turissini was a founding partner of ORC in 1991 and has served as ORC's principal operating officer since its inception.

More information on the dinner meeting and presentation can be found at <http://www.issa-nova.com/default.aspx>.

About ISSA

The Information Systems Security Association (ISSA)® is a not-for-profit, international organization of information security professionals and practitioners. It provides educational forums, publications and peer interaction opportunities that enhance the knowledge, skill and professional growth of its members.
